

Doctor Doctor

© Mario Vickram Sen, 4 Sep 1997

1

Doctor, doctor, I hope that you can save me.
I got this awful burning feeling that only you can cure.
Doctor, doctor, you know that medicine you gave me?
Well, I need a new prescription so I'm knocking at your door.

2

Doctor, doctor, I think I need examination,
If you could see inside of me, you would know the way I feel.
We've all been exposed to some contamination.
Well I may not be the doctor but I'd like to help you heal.

Bridge:

I'm embarrassed to admit it, but I've got this mad obsession,
With a certified practitioner from the medical profession.
All those pharmaceutical corporations, they are just pumping out pollution,
But this chemistry between us seems like a natural solution.

3

Doctor, doctor, my pulse is growing faint now.
I'm lying on this bed alone, and I'm calling out your name.
You've got that bedside manner to comfort and console me.
Well, I sure could use your healing touch to get me up again.
